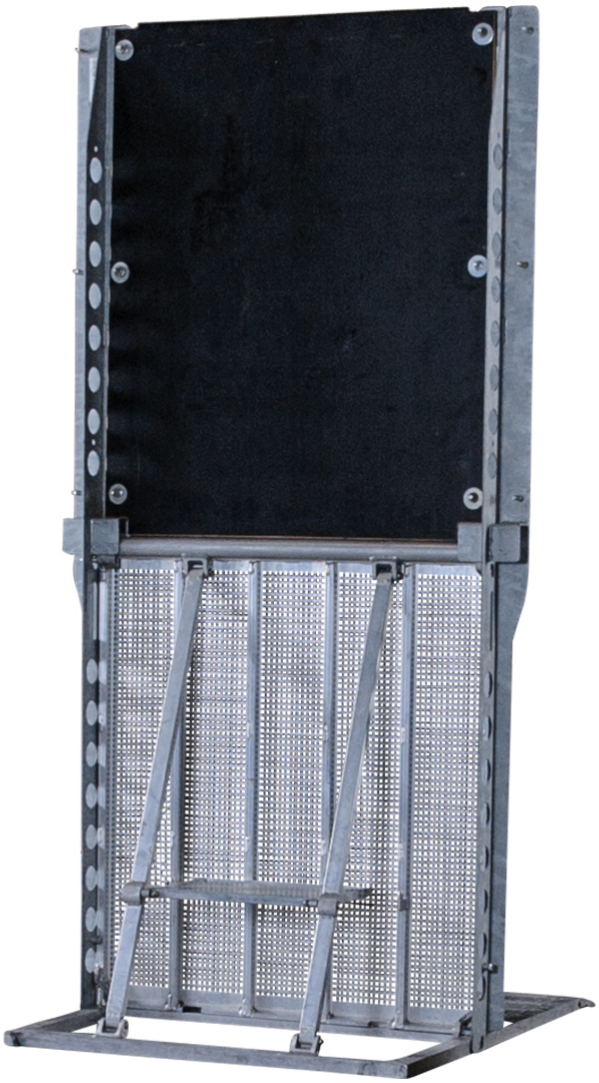
MOJO HIGH FENCE STRAIGHT, BLACK, MULTIPLEX



The MOJO High Fence Straight in black provides added height and privacy with durable multiplex panels, ideal for securing VIP zones and restricted areas.

SKU: 1004375.00 | **Categories:** MOJO Concert Barricades

PRODUCT DESCRIPTION

The **MOJO High Fence Straight** is designed to enhance event security by elevating standard MOJO barriers with solid multiplex panels, reaching a height of 7.87 feet. This high fence adds an effective privacy layer, making it an ideal solution for crowd control and securing sensitive areas at concerts, festivals, and other large-scale events.

Available in **black, white, and transparent** finishes, the MOJO High Fence offers flexibility to suit your event's aesthetic needs. The black and white multiplex panels create a **sightline kill**, blocking visibility to maintain privacy in VIP zones, backstage areas, and other restricted spaces. The **transparent polycarbonate version** allows security personnel an uninterrupted view while maintaining the same strength and stability, ensuring effective crowd control without compromising visibility.

The high fence integrates seamlessly with existing MOJO Straight Barriers, preserving the barrier system's integrity. Constructed to withstand intense crowd pressure, it's easy to set up using the interlocking system and provides enhanced protection and control over restricted zones. This high fence setup supports mega exits, gates, and doors for flexible access, making it a robust, visually appealing alternative to traditional fencing.

PRODUCT BENEFITS

- Polycarbonate is smash-proof/hooligan-proof
- Quick and simple to build
- Exceptionally strong and durable
- MOJO Barriers' mega exits, gates, and doors can be seamlessly integrated into the barrier line
- Aesthetically attractive compared to the usual mobile fencing and similar types of barricades
- Transparent polycarbonate provides security personnel with uninterrupted views without compromising stability
- Can cross roads and adapt to split-level pavements

TECHNICAL SPECS

Weight	14 lbs
Dimensions	39.37 × 7.06 in
Color	Black
Material	Multiplex panels with reinforced aluminum frame
Overall Height	Combined height of barrier is 94.49 inches
Compatibility	Attaches to MOJO Straight Barriers
