

MOJO BARRIER VARIO CORNER, SILVER

The MOJO Vario Corner Barrier in silver offers adjustable angles from -60° to +60°, perfect for creating versatile and professional barricade layouts at events.

SKU: 1001999.00 | **Categories:** [Crowd Control](#), [MOJO Concert Barricades](#)

PRODUCT DESCRIPTION

The **MOJO Barrier Vario Corner in silver** is a versatile component in any [crowd control system](#), engineered to provide maximum flexibility for concerts, festivals, and large-scale events. Featuring a robust upright and a durable floor plate, this barrier section allows for precise angle adjustments from -60° to +60°, making it ideal for custom layouts.

The Vario Corner's central hinge and partial floor plate enable precise configuration to accommodate complex crowd management setups, such as round stages, catwalks, or secondary barricade lines. The floor plate provides a stable foundation, while the set angle fixation and single-bolt connection ensure seamless integration with other [MOJO barriers](#). This design allows for easy assembly without compromising strength or stability.

The MOJO Vario Corner's partial floor plate and brace system guarantee reliability, even under heavy crowd pressure, while the sloping floor plate ensures barrier-free access. The grooved surface also prevents slips, providing a safe environment for attendees and event staff.

Also [available in black](#) for low-visibility stage environments or film sets, both color variants interconnect seamlessly with the full MOJO barricade lineup—ensuring aesthetic and functional flexibility across your event build.

Key Features of the MOJO Vario Corner Silver:

- **Fully Adjustable Angle** – Rotate between -60° and +60° for flexible barrier builds
- **Durable Aluminum Construction** – Engineered to withstand heavy use
- **Brushed Silver Finish** – Clean, professional look for high-visibility areas
- **Sloped Partial Floor Plate** – Reduces trip hazards and allows drainage
- **Rear Brace Support** – Built-in structural stability for curved lines
- **Tool-Free Connection** – Nose-plug with bolt & pin system for fast installs
- **Interlocks Seamlessly** – Compatible with all MOJO barrier components

Ideal Applications:

- Rounded barricade setups around thrust or B-stages
- TV productions, award shows, or red-carpet events
- Complex security perimeters and media zones
- Arena layouts with curves, corners, or directional changes
