

INTERLOCKING STEEL CROWD CONTROL BARRIER WITH FLAT FEET, 8FT 2IN

Heavy-duty steel barriers with flat feet for maximum stability at large events.

SKU: 1002342.00 | **Categories:** [Crowd Control Barriers](#)

PRODUCT DESCRIPTION

Our steel crowd control barriers with flat feet offer superior stability, making them ideal for concerts, festivals, and public events. The flat feet ensure secure footing on any surface, preventing tipping or movement in crowded conditions. Constructed from high-quality galvanized steel, these barriers are built to withstand harsh weather and heavy use. The interlocking system allows for fast and secure setup, and their lightweight design makes transport and repositioning simple.
