

MODULAR RED FLOOR 5-CHANNEL ASSEMBLY CABLE RAMP

The Modular Red Floor 5-Channel Cable Ramp with standard ramps offers heavy-duty protection for cables in high-traffic areas, ensuring safe passage for vehicles and pedestrians.

SKU: N/A | **Categories:** [Cable Protection Ramps](#), [Mobile Event Infrastructure](#)

PRODUCT DESCRIPTION

The Modular Red Floor 5-Channel [Cable Ramp](#) with standard ramps is designed to deliver robust cable protection in demanding, high-traffic environments. Equipped with five channels—four measuring approximately 1.3 inches wide and one central channel at 1.65 inches wide—this [ramp](#) provides ample space to secure essential cables and hoses. Built for durability, it can withstand a maximum axle load of 20,141 pounds, making it suitable for both vehicular and pedestrian traffic.

This modular center ramp features standard ramps on each side for smooth access, allowing for a continuous, flat surface that accommodates extended cable runs. The quick-connect design ensures easy setup and removal, providing dependable [cable protection](#) in any environment. Ideal for public events, construction sites, and industrial settings, this [cable ramp](#) combines safety, convenience, and heavy-duty performance.

TECHNICAL SPECS

Weight	28 lbs
Dimensions	35.83 × 21.02 × 1.89 in
Channel Size	(4 channels) approximately 1.3 in (W) x 1.22 in (H), (1 channel) 1.65 in (W) x 1.22 in (H)
Channels	5
Weight Capacity	Suitable for high-volume vehicular and pedestrian traffic
Max Load per Axle	20,141 lbs at 68°F
Connector Type	Large Dog Bone Connectors for secure, modular connections
Special Capacity	Designed to protect multiple cables with high visibility for enhanced safety
