

MODULAR RED FLOOR 5-CHANNEL CORNER PIECES WITH FEMALE CONNECTORS

Set of 2 sloped side ramps, the Modular Red Floor 5 Corner Pieces with Female Connectors ensure smooth transitions on all sides of the Red Floor 5-Channel Cable Ramp for safe pedestrian and vehicle access.

SKU: 1012425.00 | **Categories:** [Cable Protection Ramps](#), [Mobile Event Infrastructure](#)

PRODUCT DESCRIPTION

The Modular Red Floor 5 Corner Pieces, available in both Male and Female Connectors, provide a flexible solution for smooth, accessible transitions on all sides of the Red Floor 5-Channel [Cable Ramps](#). Each set includes two sloped side ramps that connect seamlessly with center ramps and wheelchair access ramps, creating secure and level access for both pedestrians and vehicles.

Built for high-traffic environments, these corner pieces feature a durable construction and a grooved surface for added traction. Ideal for events, construction sites, and other demanding settings, the corner pieces ensure robust [cable protection](#) while maintaining safe, accessible pathways.
