

## PORTABLE STAGE PLATFORM KIT, 24' X 12', ADJUSTABLE 2'-3' HEIGHT

Adjustable portable stage platform measuring 24' x 12' with a height range of 2'-3'. Built from lightweight yet ultra-durable aluminum, it's designed for quick setup, all-terrain use, and load capacities up to 125 psf.

**SKU:** i123456789.01 | **Categories:** [Portable Staging](#), [Stage Platforms](#), [Stages](#)

## PRODUCT DESCRIPTION

The 24' x 12' Portable Stage Platform Kit (Adjustable Height 2'-3') is a rugged and flexible [staging solution](#) ideal for concerts, outdoor events, corporate presentations, and more. Designed to perform on uneven surfaces, this modular system combines strength, portability, and easy setup for dynamic event environments.

Constructed with aircraft-grade 6061 T6 aluminum legs, this platform adjusts from 2 to 3 feet in height, ensuring stable footing on challenging terrain. Each [stage deck](#) features a baked-on black finish for added weather resistance and a hexagrip anti-slip surface for enhanced safety underfoot. With a load capacity of 125 psf, it's even strong enough to support a car.

Thanks to its lightweight frame and compact profile, the stage is easy to transport, store, and reposition. The under-deck storage and integrated T-slot for accessories make this a favorite for production teams needing flexible solutions under pressure.

### Key Features

- **Adjustable Height (2'-3')** – Adapts to terrain and staging requirements.
- **High Load Capacity** – Withstands up to 125 psf, robust enough for heavy equipment or vehicles.
- **Anti-Slip Surface** – Phenolic-laminated G2S plywood with hexigrip for safety.
- **Weather-Resistant Finish** – Baked-on black coating resists harsh outdoor conditions.
- **Quick Setup & Modular Design** – Lightweight and easy to assemble without compromising strength.
- **Accessory-Ready** – Integrated T-slot and dual-function corners support additional hardware and fast-fold frames.

## TECHNICAL SPECS
