

PORTABLE STAGE PLATFORM KIT, 40' X 20', ADJUSTABLE 3'-5' HEIGHT

Professional 40' x 20' portable stage platform kit with adjustable 3'-5' height. Includes 25 modular decks, 9 Fastfold frames, and 2 stair units. Built to perform on uneven terrain with weather-resistant aluminum framing and anti-slip surface.

SKU: i123456789.03 | **Categories:** [Portable Staging](#), [Stage Platforms](#), [Stages](#)

PRODUCT DESCRIPTION

The Portable Stage Platform Kit, 40' x 20', Adjustable 3'–5' Height delivers professional-grade performance in a streamlined footprint—perfect for corporate events, live music, and community gatherings. This kit includes 25 Smartstage modular decks (4' x 8'), 9 Fastfold frames, and 2 variable-height stairs with handrails.

Constructed with a 6061 T6 aluminum frame, each deck features a phenolic-laminated hexagrip surface for slip resistance, plus a recessed Velcro groove for easy skirting. Designed for fast deployment on uneven or sloped surfaces, the platform is both rugged and lightweight, resisting weather, wear, and heavy use.

With a load capacity of 125 psf, this stage can even support vehicles or large equipment—yet it remains compact and modular for quick storage and transport. Ideal for touring productions, temporary installations, and adaptable event footprints.

Key Features:

- **Mid-Sized Coverage** – 40' x 20' stage area built from 25 modular decks
- **Adjustable Height (3'–5')** – Fastfold frames stabilize across varying terrains
- **Slip-Resistant Surface** – Phenolic hexagrip finish ensures safety in all conditions
- **Weather-Resistant Design** – Baked-on black finish for outdoor durability
- **High Load Capacity** – Withstands up to 125 psf, ideal for heavy gear or vehicles
- **Compact & Repositionable** – Modular system is easy to transport and reconfigure
- **Skirt-Ready** – Includes recessed Velcro groove for clean skirt installation
- **Under-Stage Storage** – Convenient cable or gear space for production teams
